Ring wants to help reduce crime and increase safety in Fort Lauderdale, FL

Ring is excited to propose a solution to the City of Fort Lauderdale (City), by working with the Fort Lauderdale Police Department (FLPD) to help prevent crimes and assist in investigations in your community. In an effort to reduce local crime and make Fort Lauderdale neighborhoods safer, Ring is proposing to partner with the City, through FLPD to implement home security and crime prevention programs. These programs will include training and support.

Partnership Description

The City through FLPD enters into a partnership with Ring to use the Ring Neighborhoods platform to make Fort Lauderdale neighborhoods safer.

- The Ring Neighborhoods platform is a digital neighborhood watch that both law enforcement and the public can access, free of charge. The public can access the platform by downloading the free Ring app through the Apple app store and Google play store.
- The app allows the community to share and comment on real time crime and safety events in their neighborhood. There are already more than 9,900 Fort Lauderdale residents using the app.
- As part of the partnership, FLPD will:
 - Use the critical crime and safety events that are posted in the app to assist in law enforcement operations and investigations.
 - Post in the app information relating to critical incidents and other information that would keep the public informed regarding issues in their neighborhoods.

Responsibilities

Ring Will:

- Make the Ring app available to Fort Lauderdale residents free of charge. As part of the program Fort Lauderdale residents will actually earn \$10 in Ring Credits when they invite a neighbor who downloads the app, and earn \$10 in Ring Credits when they download the app based on an invite from either FLPD or an existing Ring app neighbor.
- Donate 100 cameras to FLPD to be used for any purpose upon commencement of a partnership with additional donations over the course of the partnership based on engagement in the program and platform.
 - Said donations will be calculated as follows: The City will receive a \$10.00 credit for every resident or business owner that downloads the Ring free app. The credit will then apply to the donation of additional Ring cameras at a cost of \$200 per camera. Each time the City accrues \$20,000 in credit, Ring will provide the City an additional 100 cameras.
- Make the Ring Neighborhoods Portal available to FLPD, free of charge, including support and training for FLPD employees.

FLPD will:

- o Engage the Fort Lauderdale community with outreach efforts on the platform to encourage adoption of the platform/app.
- o Identify select areas for donation cameras in partnership with Ring that are accumulated through the app download program to maximize community benefit.
- o Maintain appropriate access controls for FLPD employees to use the portal.
- o As permitted by Florida's Public record's laws, make data related to calls for service and crime data available to Ring on a mutually agreed upon basis.

Term

The agreement shall commence upon being executed by the parties, with the Neighborhoods Portal becoming available to FLPD no later than April 2nd, 2018. Either party may terminate the agreement and participation in the program at any time upon providing written notice to the other party.

Press Release

The parties shall agree to a joint press release to be mutually agreed upon by the parties.

Privacy and Terms of Use

The City, through FLPD, agrees to use the Ring Neighborhoods Police Portal for law enforcement purposes only. Ring's terms of service and privacy notice, attached as Exhibits "A" and "B", shall apply to all uses of the Ring Police Portal.

Compensation

At no point shall either party receive compensation from each other as a result of this partnership.
